CPRR Program Details

Siemens Healthcare Diagnostics's CPRR Program is designed to allow the customer to customize for their laboratory. The CPRR process allows customers to pay directly on the basis of actual reportable results, improving the ability to predict patient volumes and manage budgets more effectively. Based on customer selection, the final CPRR price includes the Dimension chemistry analyzer and ancillary equipment, service, reagents, consumables, verifiers, and supplies. A Millipore water system and a one-year warranty are included. Please see the attached Product List for specific details of products included. Products not manufactured by Siemens Healthcare Diagnostics are not part of the CPRR Program.

CPRR Billing Process Requirements:

- Reportable Results include patient billable tests, studies and health fairs
- Siemens Healthcare Diagnostics will provide expected quantities of CPRR product based on the estimated monthly commitment for each product.
- At program start up, the customer will purchase a one month supply of product as a "safety stock". Following that order, appropriate supplies will be shipped in at no charge to the customer and billing will occur once reportable results are transmitted to Siemens Healthcare Diagnostics.
- Transmission of data must occur by the 5th of each month. If no transmission is received by the 15 of the month, Siemens Healthcare Diagnostics may issue an estimated invoice.
- Full invoice payment is due no later than **30 days from invoice date**
- Customer Responsibilities
 - to generate the appropriate file type with required content
 - to provide set up of phone line, modem etc. to transmit data
 - to map the LIS mnemonics to Siemens Healthcare Diagnostics mnemonics and create transmission files
 - to verify that LIS data is captured correctly in the transmission file
 - Update LIS mnemonics and data transmission files as new tests are added to the menu.
 - Customer will make available their books, documents, and records to certify the nature and number of Reportable Results transmitted under the agreement.

(for details around the CPRR submission and billing process, please contact Siemens Healthcare Diagnostics)

Millipore System: A Millipore water system, appropriate for the size and number of analyzers, with a one-year warranty is included in the 5 year pricing. The Millipore system is manufactured and serviced by Millipore, therefore, any questions, service requests, and/or supply requests should be directed to Millipore by the customer, at the customer's expense. The first year of service from Millipore is Business Hours. Dimension Vista 1500 Millipore one-year warranty is included in the 5 year pricing and the first year of service from Siemens Healthcare Diagnostics will be 24/7.

includes:

- One Preventative Maintenance Visit
- Consumables for one year (at the volumes listed below)

Millipore PM Visit includes: Electronic and mechanical inspection, sanitation and performance analysis of membrane; sanitation of tank (if applicable), replacement of filters, and purification paks, as well as replacement of AFS product tubing. Pretreatment filters, and RO pretreatment pak are replaced. Confirm that all electronics are current version and that the system is operating within OEM specifications. Water chemistries will be performed including dissolved oxygen readings, bacteria readings, chlorine, silica and SDI testing.

Maximum Consumable Volumes for One Year		
Quantity	Item Number	Description
Millipore 3D		
2	CPAFS3PRM	Progard2, Bacteria Filter and Vent Filter
3	CP1ALLRES	AFS Cartridges
2	ZWAA57D5X	PM Visit including travel and labor
Millipore 8D		
3	CPAFS8PRM	Progard3, millipak 100, millex and tubing
3	CP2ALLRES	AFS Cartridges
3	PRPK00001	Pretreatment Cartridges
2	ZWAA57D5J	PM Visit including travel and labor
Millipore 16D		
4	CPAFS8PRM	Progard3, millipak 100, millex and tubing
6	CP2ALLRES	AFS Cartridges
4	PRPK00001	Pretreatment Cartridges
2	ZWAA57D5K	PM Visit including travel and labor

Maintenance and Repair / Service:

The customer is responsible for all daily, weekly and monthly routine operator maintenance and will record completion in maintenance log. Customer Selects from the following options:

Full Service Agreement (24/7): includes preventive maintenance visits at the manufacturer's recommended intervals, unlimited service visits and all necessary replacement parts, excluding disposables and customer maintenance and operating supplies, twenty-four hours per day, seven days per week.

Business Hours Agreement: includes preventive maintenance visits at the manufacturer's recommended intervals, unlimited service visits and all necessary replacement parts, excluding disposables and customer maintenance and operating supplies, during normal business hours. Normal business hours are from 8:00 a.m. to 5:00 p.m. Monday through Friday, excluding holidays.

***Parts:** All parts are included except those which are supplied with the initial shipment and are meant to last through the life of the equipment. These items include but are not limited to tools, alignment gages and segments. Although necessary, these items are not critical to instrument operation.*

Service Requests/Technical Assistance:

Customer may contact the Technical Assistance Center (hotline) twenty-four hours per day, seven days per week.. Customers are requested to contact the hotline for all inquiries, including technical assistance and service requests. If a service visit is needed, or requested, the Field Service Representative (FSR) receives notification from the Technical Assistance Center and then calls the customer and determines if additional parts or other resources may be needed to perform the requested service. An on site visit is scheduled with the customer.

Technical Assistance Hotline: 1.800.441.9250 available 24 / 7

Shipping and Handling:

Standard Shipping and Handling

Siemens Healthcare Diagnostics provides shipping and handling for Government customers on routine shipments at no charge and applies to all 50 states, DC, and Puerto Rico.

Routine shipments are those that are placed using Siemens Healthcare Diagnostics's primary shipping modes: "DRD" (Dedicated Truck Fleet) or "Siemens Healthcare Diagnostics Select". The shipping mode for each customer is determined by Siemens Healthcare Diagnostics based on geographic location.

"DRD" (Dedicated Truck Fleet)

Siemens Healthcare Diagnostics uses dedicated fleets and other mode and carriers for delivery.

Locations that are receiving their shipments on the dedicated truck network will need to place their orders by the truck schedule for delivery the following week. The schedule is available online at www.siemens.com.

The order to delivery lead time for DRD service is a maximum of seven business days.

Siemens Healthcare Diagnostics Select

"Select is a Siemens Healthcare Diagnostics shipping process by which delivery is received within five business days of order placement. Siemens Healthcare Diagnostics utilizes ground or air carriers to deliver the order depending on the nature of the products shipped and the distance to be shipped.

The maximum delivery lead time for Siemens Healthcare Diagnostics Select service is five business days.

Expedited Shipping and Handling

Siemens Healthcare Diagnostics provides several additional methods for shipping and handling including:

- Two business day service
- Next business day service
- Next business morning service (where available)
- Saturday service (where available)
- Next Flight out service (where available)

Siemens Healthcare Diagnostics ships temperature controlled products that are restricted from shipping over weekends and holidays. An extra business day or two may be required for orders that are scheduled to be in transit over week ends or holidays.

Charges for Expedited Shipping and Handling Services.

The customer is responsible for all charges associated with expedited delivery. The charges are based on the net weight of the shipments.

Due to the complex nature of Siemens Healthcare Diagnostics's shipping (Refrigerated, frozen, dry ice, hazardous, infectious substances) the shipping and handling charges for each shipping condition offered (Next Business Day, etc) are based on the average cost of shipping and handling for the shipping condition. The charge is, on average, the difference between the Standard Shipping and Handling Cost, and the cost for Expedited Shipping and Handling.

Training:

Upon Installation - Siemens Healthcare Diagnostics Inc will provide training at the Siemens Healthcare Diagnostics manufacturing location for two operating personnel for the Dimension RxL Max and one operating person for the Xpand at no charge to the Government. This includes airfare, room and board.

Additional Training in years 2 through 5 - Siemens Healthcare Diagnostics will provide training at the manufacturer's facility for one operator per year (if requested by the customer). The Government agrees to cover airfare for the additional training. These classes cannot be carried over from one year to the next. Laboratories may train additional staff via **KnowItsm** online training (details below) at no charge. Any requested incremental training (above that mentioned above) is offered at prices below.

<u>Equipment</u>	<u>Training Location</u>	<u># of Days</u>	<u>Price</u>
RxL Max	Glasgow, Delaware	3.5	\$1,875*
Advanced RxL Max	Glasgow, Delaware	2	\$1,400*
Xpand Plus	Glasgow, Delaware	3	\$1,400*
StreamLAB	Glasgow, Delaware		On Site
DimensionVista 1500	Glasgow, Delaware	4.5	\$2,500*

**prices do not include airfare*

KnowItsm interactive e-learning brings a virtual classroom right to your lab, providing a convenient and cost-effective way to move your staff up the learning curve quickly and manage long term knowledge development. Ready and available, KnowItsm offers employees the flexibility to complete the course at his/her own pace and as schedules allow. It provides an interactive learning

experience with instant feedback, reinforcement and motivation. Each module features pre and post-tests to measure performance. Test scores are then stored in a database. Online at www.siemens.com

Available for RxLMax and Xpand Plus.

- Pre-training prior to attending a Siemens Healthcare Diagnostics Class
- A tool with which classroom attendees can provide customer training back in the lab for the rest of the staff
- A quick reference and refresher tool

Compliance - Should the Customer fail to purchase in any calendar quarter at least three (3) times the Estimated Monthly Commitment for Reportable Results in the aggregate or for any of the individual categories or products set forth therein, listed on Attachment A provided to the Customer, Siemens Healthcare Diagnostics, in addition to such other rights as are available by law, reserves the right to a) increase the minimum number of Reportable Results required for any subsequent periods to compensate for the shortfall, and/or b) immediately adjust the prices for any subsequent period to the appropriate tier on the Federal Supply Schedule based on the actual average volume of Reported Results and c) bill the Customer the Minimum Monthly Fee according to the formula below for any months where the Estimated Monthly Commitment was not met. New pricing and commitment amounts will be provided on an addendum. A signed addendum to the original contract with the new committed volume and pricing will be required.

Minimum Monthly Fee Formula -

The amount of the cost of the use of the Equipment and service will be divided by the total Estimated Monthly Commitment of Reportable Results as revised for the change in Reportable Results purchases. This amount ("Surcharge") is then added to the base reagent prices for which you are eligible according to the Federal Supply Schedule tiers based on the actual average volumes. The Customer acknowledges that the cost of your use of the Equipment is included in the price of the Reportable Results, and that this portion of the price of the Reportable Results is not subject to renegotiation with Siemens Healthcare Diagnostics

Exclusions: Items not manufactured by Siemens Healthcare Diagnostics, those not include on the Products List attached, product necessary for open channel or user defined tests, relocation of equipment, biomedical engineer training, Millipore service after the one year warranty and Millipore support are excluded from the CPRR Program.

Siemens Healthcare Diagnostics Chemistry / Immunochemistry

The Dimension Vista® 1500 Intelligent Lab System

In 2006, Siemens Healthcare Diagnostics introduced the Dimension Vista® 1500 Intelligent Lab System, a fast, discrete ultra-integrated analyzer with four detector systems (IMT, Photometric, Nephelometric and Luminometer) to seamlessly process a full menu of over 100 tests, covering routine chemistries, specialty chemistries, cardiacs, STATs, DAUs, TDMs, endocrinology, plasma proteins, highly sensitive LOCI™ immunoassays and eventually fertility, cancer markers, anemia, and infectious disease testing - at the same time. Again, there is no reagent preparation and no pretreatment of any sample. This completely integrated approach means less sample splitting and aliquots in the lab. There is no need to connect to any other instruments to complete test menu as the integration of the detectors are designed into the system. No other modules are required. A broad test menu is available, including general chemistry, diabetes monitoring, therapeutic drug monitoring, drugs of abuse, special chemistry, thyroid, cardiac markers, toxicology, electrolytes, anemia, immunosuppressive drugs, and plasma protein.

the next level of integration on a Dimension
Integrated Chemistry Immunoassay System?

Dimension® *EXL*™

Chemistry and Immunoassay testing on one analyzer for lower cost of ownership

- ♦ Heterogeneous immunoassay module for true integration
- ♦ More than 90 available assays without the need for additional analyzers
- ♦ Easy stable and convenient FLEX reagent concept
- ♦ Photometry and QuikLYTE I.M.T. onboard
- ♦ Maximum productivity from one of the smallest footprints in the industry
- ♦ May be upgradeable to include a future immunoassay technology*

*under development – not available for sale.

Dimension[®] *X*band

The Dimension Xband integrated chemistry system is the first to combine comprehensive chemistry and STAT heterogeneous immunoassay testing on a single platform to provide an unbridled workhorse for the low to mid volume testing laboratory with a small footprint.

Dimension[®] *RL* Max™ integrated chemistry system

The Dimension RxLMax integrated chemistry system allows for the simultaneous processing of chemistries and immunoassays assuring fast TAT . An extensive menu provides more answers and more options from one tube on one platform to streamline workflow.

Dimension[®] *RL* Max Suite™ integrated chemistry system

The Dimension RxLMax Suite includes the Reagent Management System (RMS) which increases onboard capacity up to 88 Flex Reagent Cartridges, allows for rapid loading of cartridges decreasing set up time and dedicated hydration of reagents ensuring optional processing efficiency and decreased turn around time.

Automation / Robotics

StreamLAB™ Analytical Workcell ***Automated Sample Processing and Analysis***

The StreamLAB™ Analytical Workcell is complimentary to the Dimension RxL Max™ instrumentation. Dimension RxL Max™ instruments are connected to the StreamLAB™ system to provide a fully automated workcell which consolidates pre- and post-analytical functions. In high volume labs, this type of process enhancement improves efficiency, and reduces labor requirements. Each placement of StreamLAB™ is customized, as it is scalable to fit the size and throughput requirements of individual laboratories. The components are consistent but in different quantities and configurations.

Customized CPRR Pricing Worksheet

Equipment and Service

1. Select Total Term of Agreement

(Across the top of CPRR Instrumentation and Service Pricing Grid)

Term is subject to annual appropriation of funds. This agreement does not obligate funds.

2. Select Instrumentation and any Accessories and list the monthly amount for each item below. Multiply by the quantity required for the each to obtain a total amount for each line.

(From CPRR: Instrumentation Pricing Grid based on selected term)

Equipment	\$	X	QTY		
\$ _____		X	_____	=	\$ _____
\$ _____		X	_____	=	+\$ _____
\$ _____		X	_____	=	+\$ _____
\$ _____		X	_____	=	+\$ _____

3. Total Instrumentation \$ _____ Sum Total =\$ _____
(Sum of items listed in #2)

4. Total Annual Instrumentation \$ _____ (x12) X (#of years) \$ _____
(#3 multiplied by 12) x (# of years)

5. Monthly Instrument \$: Multiply #4 by current Money Factor \$ _____
(obtain money factor from Siemens Healthcare Diagnostics)

6. Select Required Service. List the monthly amount for each item below, multiply by the quantity required for the each to obtain a total amount for each line.
(From CPRR: Service Pricing Grid based on selected term)

Service/ \$	X	QTY		
\$ _____	X	_____	=	\$ _____
\$ _____	X	_____	=	+\$ _____
\$ _____	X	_____	=	+\$ _____
\$ _____	X	_____	=	+\$ _____

7. Total Service \$ _____ Sum Total =\$ _____
(Sum of items listed in #6)

8. Monthly Instrument and Service \$ _____
(Add #5 and #7)

9. Total Annual Instrumentation and Service \$ _____ (x12) \$ _____
(Multiply #8 x12)

10. Total Annual Reportable Results _____

11. Surcharge per Reportable Result

(#9 Divided by #10)

Chemistry CPRR Pricing

This pricing includes calibrators, verifiers and supplies (See Product List for items included)

12. Use total annual reportable results to determine price per reportable result (for each individual method in) for the panels/categories for methods listed in CPRR: Reagent Pricing Grid Group A:

****Methods included in all panels or categories are outlined in Reagent Category Schedule****

13. Use total annual reportable results for each specific method to determine price per reportable result for methods listed in CPRR: Reagent Pricing Grid Group B and C:

14. TOTAL CPRR Price:

(Add #11 to each method price in #12 AND #11 to each method price in #13)

Instrumentation and Service Pricing

All figures are monthly amounts and do not include service or money factor / interest. Figures have been rounded and may vary slightly

Recertified Equipment: Customers will receive a minimum of a 10% discount from instrument contract prices for recertified units currently under production.

Multiple Instrument Discount: Customer will receive a 5% discount for customers purchasing multiple Dimension Xpand analyzers and 20% for customers purchasing multiple Dimension RxL and EXL analyzers in the same purchase order.

Equipment Ownership: Title to all equipment provided under this contract remains with Siemens Healthcare Diagnostics.

Money Factor: Rates will be equivalent to those provided for commercial customers with similar terms. Once a customer enters into an agreement, the rate is fixed for the term of that agreement.

Dimension - Government Reagent Pricing Schedule for 2006 - 2011

Cost per Reportable Result PLUS Pricing

Cost per Reportable Result Plus pricing includes reagents, calibrators, consumables, verifiers, and supplies.

Group A Tests

CPRR Prices per Analyte Inclusive of Reagents, Calibrators, Consumables, Verifiers, and Supplies

Total Patient Volume (not total photometric volume)	Compre- hensive Metabolic Panel	Routine Chemistry	Stream- Lab Supplies per Test
<50,000 patient tests	CPT only	CPT only	
50,000- 359,999	0.135	\$ 0.166	
360,000 - 899,999	0.116	\$ 0.141	\$ 0.0250
900,000-1,999,999	0.099	\$ 0.122	\$ 0.0250
2MM - 4.4 MM	0.084	\$ 0.111	\$ 0.0250

Group B Tests

CPRR Prices per Analyte Inclusive of Reagents, Calibrators, Consumables, Verifiers, and Supplies

Annual Patient Volume per Analyte	Instrument Maximum	Specialty (per Assay)	TDM (per Assay)	Drugs of Abuse (per Assay)	AMY & MG (per Assay)	AHDL	Cat 7	Cardio- Phase CRP and hsCRP	ALDL
<500	CPT only for any test with a patient volume fewer than 500 per year								
501 - 800	1	\$ 2.484	\$ 4.541	\$ 2.402	\$ 1.394	\$ 1.394	\$ 6.048	\$ 11.290	\$ 7.164

K4089	Vista® Cyclosporin A	Immunosuppressive Drug Panel	\$24.412	\$23.860	\$22.781
K6440	Vista® Ferritin	Anemia Panel	\$2.085	\$1.911	\$1.789

Dimension - Government Reagent Category Schedule

Comprehensive Metabolic Panel			Category 5 Tests		
1	CA Calcium	DF23A	57	METH Methadone	DF90A
2	EC02 Carbon Dioxide	DF137	58	AMPH Amphetamines®	DF91B
3	CREA Creatinine	DF33A	59	COC Cocaine Metabolite	DF92A
4	GLU Glucose	DF39A	60	OPI Opiates	DF93A
5	Liquid GLU Glucose	DF40	61	PCP Phencyclidine	DF94A
6	BUN Urea Nitrogen	DF21	62	THC Cannabinoids	DF95A
7	ALB Albumin	DF13	63	BARB Barbiturates	DF96A
8	ALT (GPT) Alanine Aminotransferase	DF43A	64	BENZ Benzodiazepines	DF97A
9	AST (GOT) Aspartate Aminotransferase	DF41A	65	Ecstasy	DF109
10	TBIL Total Bilirubin	DF167	Category 6 Tests		
11	ALP Alkaline Phosphatase	DF15A	66	TSH, Thyroid Stimulating Hormone	RF 412
12	TP Total Protein	DF73	67	FT4, Free T4	RF 410
Routine (Formerly Category 1 and 2 Tests)			68	HA1C Kit	DF105
			69	MMB, Mass CKMB	RF 420
			70	LMMB	RF 520
			71	HCG, Human Chorionic Gonadotropin	RF 430
13	URCA Uric Acid	DF77	72	LHCG, Human Chorionic Gonadotropin	RF530
14	CHOL Cholesterol	DF27	73	cTnI, Troponin I	RF421C
15	DBIL Direct Bilirubin	DF125	74	LTNI	RF521
16	CK Creatine Kinase	DF29A	75	TPSA	RF 451
17	GGT g-Glutamyl Transferase	DF45A	76	rMYO, Myoglobin	RF 422A
18	LDH Lactic Dehydrogenase	DF53A	77	FPSA	RF 452
19	PHOS Phosphorus	DF61	78	FERR, Ferritin	RF 440
20	TRIG Triglyceride	DF69	79	Cyclosporine A Extended	DF108
21	rTRIG Triglyceride	DF69A	80	Cyclosporine	DF89
Specialty (Formerly Category 3 Tests)			81	NT-proBNP	RF423
			82	Low volume NT-proBNP	RF523
			83	Tacrolimus	DF107
			Category 7 Tests		
22	ACP Acid Phosphatase	DF11	83	IBCT	DF84
23	ACTM Acetaminophen	DF88	84	IGA	DF74
24	ALC Alcohol	DF18	85	IGG	DF76
25	AMON Ammonia	DF19	86	IGM	DF81
26	CKMB Creatine Kinase-MB	DF31	87	C3	DF101
27	CRP C-Reactive Protein	DF37	88	C4	DF102
28	HDL HDL Cholesterol	DF47	89	Transferrin	DF103
29	IRN Iron	DF85	90	Microalbumin	DF114
30	TIBC Total Iron Binding Capacity	DF83	91	Cardiophase hsCRP	RF434
31	LA Lactic Acid	DF16	92	Prealbumin	DF80
32	LIP Lipase	DF55A	Electrolyte Supplies (Na,K,Cl,TCO2) Item Number		
33	PCHE Pseudocholinesterase	DF51	For Dimension Xpand Models		
34	SAL Salicylate	DF20	QuikLYTE™ IMT Integrated Multisensor S600		
35	TU Thyronine Uptake	DF75A	QuikLYTE™ IMT Standard A S620		
36	T4 Thyroxine	DF65	QuikLYTE™ IMT Standard B S625		
37	Total T3	RF414	QuikLYTE™ IMT Flush Solution S630		
38	Urine CFP	DF26	QuikLYTE™ IMT Sample Diluent S635		
Amylase / Magnesium			QuikLYTE™ IMT Diluent Check S640		
39	AMY Amylase	DF17A	Salt Bridge Solution D105		
40	MG Magnesium	DF57	For Dimension RxL/XL Models		
41	AHDL Automated HDL	DF48B	QuikLYTE™ IMT Integrated Multisensor S600		
42	HsCrp	DF34	QuikLYTE™ IMT Standard A S620		
43	ALDL	DF131	QuikLYTE™ IMT Standard B S625		
Category 4 Tests			QuikLYTE™ IMT Flush Solution S630		
			QuikLYTE™ IMT Sample Diluent S635		
			QuikLYTE™ IMT Diluent Check S640		
			Salt Bridge Solution D105		
44	DGNA Digoxin (No Pre-Treat)	DF35A	TCO2 Release Agent - for RxL D104A		
45	PHNO Phenobarbital	DF60	TCO2 Electrode Fill Solution D107		
46	PTN Phenytoin	DF64	TCO2 Cartridge Membranes D108		
47	PROC Procainamide	DF110	TCO2 Electrode Sensor G907		
48	NAPA N-Acetylprocainamide	DF111			
49	THEO Theophylline	DF71			
50	CRBM Carbamazepine	DF87			
51	DGTX Digitoxin	DF36			
52	GENT Gentamicin	DF12			
53	LITHIUM	DF132			
54	TOBR Tobramycin	DF14			
55	VANC Vancomycin	DF86			
56	VALP Valproic Acid	DF 78			
57	LIDO Lidocaine	DF113

Emit II Plus Ecstasy/Calibrator/Control		9X549UL	12	Yes
Emit II Plus Ecstasy/Calibrator/Control		9X569UL	12	Yes
Emit II Plus Ecstasy/Calibrator/Control		9X589UL	12	Yes
CALIBRATION PRODUCTS				
ALC-Calibrator	832	DC37A	4	Yes
AHDL Calibrator Revised		DC48A	4	Yes
ALDL - Calibrator		DC131	6	Yes
AMON-Calibrator	440	DC25	4	Yes
CHEM I-Calibrator	825	DC18A	12	Yes
CHEM II-Calibrator	443	DC20	12	Yes
CHOL-Calibrator	444	DC16	4	Yes
CRP-Calibrator	472	DC30	6	Yes
CRP-CardioPhase CRP Calibrator	RC434	DC30	6	Yes
DRUG-Calibrator	852	DC22B	12	Yes
DRUG-Calibrator II	399	DC49A	12	Yes
EC02 - Calibrator (for use w/ Xpand & Max only)		DC137	4	Yes
Ferritin Calibrator	492	RC 440	6	Yes
HDL-Calibrator	449	DC29	4	Yes
IRN/TIBC-Calibrator	450	DC21	4	Yes
IBCT-Calibrator		DC84	4	Yes
LIP-Calibrator	436	DC15A	8	Yes
Microalbumin - Calibrator		DC114	12	Yes
NT-proBNP Calibrator		RC423	12	Yes
PALB-Calibrator	486	DC50	6	Yes
RCRP - hsCRP calibrator		DC34	6	Yes
SAL-Calibrator	840	DC38	4	Yes
Special Protein Calibrator		DC51	6	Yes
TBIL/DBIL-Calibrator	441	DC17	4	Yes
TP/ALB-Calibrator	473	DC31	4	Yes
T-Calibrator	473	DC31	4	Yes
TOTAL T3 - Calibrator		RC414	6	Yes
T4-Calibrator	452	DC13	6	Yes
TU-Calibrator	453	DC14	6	Yes
UCFP-Calibrator	853	DC45	6	Yes
Thry Cal Kit ASSY	383	RC 410	12	Yes
MMC Cal Kit ASSY	381	RC 420	6	Yes

LMMB Cal Kit ASSY		RC420C	6	Yes
MYO Calibrator		RC 422	4	Yes
HCG Cal Kit ASSY	384	RC 430	6	Yes
PSA Cal Kit ASSY	380	RC 450	6	Yes
PSA Control	382	RC 451	365	Yes
VERIFICATION PRODUCTS				
	EXPRESS ORDER	CATALOG	Frequency of Use/year	Included in CPT +
